

Star Valley Students and Families

We would like to welcome you to the 2022-2023 school year. We are really looking forward to having you here at SVHS. Since the 1910-1911 school year students have been participating in both academics and activities. That year there were 34 students who attended, and we are anticipating for the 2022-2023 school year to be approaching 900 students that will participate in this rich tradition of excellence. Teachers at SVHS have been dedicating their careers to help students prepare themselves to be successful out in the world and will continue to do the same for you. Many have come before you and many will come after. You have just a few short years to be here with your peers and teachers. Please, above all else, **Choose to be Kind**. This is an act that is never wasted and has lifelong effects of happiness and fulfillment. Each of you deserves to be treated with respect and kindness. Choosing to be a part of any type of bullying or harassment will only hurt you and those around you. Again, please choose to be kind. Our goal is to provide a safe and effective learning environment for you to achieve. Best of luck this year with your studies and activities. Go Braves!
